

Dressing Change Kits

Sterile dressing change kits may help to reduce the risk of CLABSI, and to ensure you have all the supplies you need.

Sterile dressing change kit:

- Chlorhexidine scrub 
- Sterile gloves 
- Chlorhexidine-containing sponge (if using) 
 - Transparent dressing if you are using a chlorhexidine-containing sponge
- Chlorhexidine-containing transparent dressing if you are not using a chlorhexidine-containing sponge
- Tape for label 

Outside of the sterile dressing kit:

- Soap and water or hand sanitizer 
- Non-sterile gloves separate from the sterile dressing change kit. 
- Marker or pen to label dressing 
- Clean, flat surface on which to place the sterile dressing change kit and sterile gloves.
- Alcohol wipes or saline wipes  to remove any debris or dried material on the line.
